# MOWHAWKS

## LAWN AND SERVICES

The Mowhawks are excited to showcase what they can do with their new John Deere All Terrain Mower ! This mower has a 72 inch cutting deck, allowing them to tackle large properties during their busy periods. This is an amazing opportunity for the Mowhawks as they are the onl contractors in the loccal area with this machinery, and are able to expand their client base to outside of the valley, for example Kundabung and Telegraph Point.

If you see Zac around, take a minute to ask him about his recent Jet Ski experience on a recent holiday to Queensland's Gold Coast

Weaving past islands, beaches, sandbars and through mangroves, Zac loved the views. He loved the adrenalin rush even more, "flat sticking" at 100kms per hour after they had negotiated the low wake areas in the 6 knot zone

Using his quadbike riding experience Zac was easily able to slot into the faster group, maximizing the thrills of the 2 hour ride. Did he come off? You'll have to ask him to find out.

Zac speaks highly of "Jetski Safari" who he went with, and was highly impressed with their professionalism and the knowledge shared during the safety induction and practice ride prior to departure. Good to know that jetski's don't have brakes, and need 50 metres to stop when you throttle off!
